

# Nano Korea 2007

The 5<sup>th</sup> International Nanotech Symposium & Exhibition in Korea

> ready > set > succeed

## August 29 - 31, 2007 | Goyang, South Korea

South Korea is a dominant country in nanotechnology today.

In 2001, the South Korean Ministry of Science and Technology (MOST) drew up a ten-year master plan to promote nanotechnology. This *Nanotechnology Initiative* offers tremendous opportunities for Pennsylvania companies: establishing R&D centers, training for the nanotech industry and reinforcing education networks.

### REGISTRATION

Pennsylvania realizes the potential of nano-technology and is offering its companies a cost-effective way to participate in Nano Korea. Exhibiting with Pennsylvania enables small-to-medium sized companies to make an impact at this prominent trade show without the high cost.

Whether the Pennsylvania booth serves as a "home base" while you walk the show or as a prime meeting area for potential contacts, your participation is an ideal way to begin or increase overseas trade.

**For a registration fee of \$350 (normally \$1,600 - \$2,500) your company will receive:**

- > Enlarged image of your company name, logo and product(s) in your display area (Company provides graphic)
- > Listing of your company in the show catalogue and electronic media
- > Exhibitor passes to the show
- > Assistance from PA's Korean representative with one-on-one appointments
- > Opportunity to make 15 minute presentation at the Research and Business Development (R&BD) Seminar
- > Assistance with hotels and free shuttle to show

**Registration deadline: May 31, 2007**

### ABOUT NANO KOREA

Last year 118 exhibitors from Japan, the US, the UK, Germany, Korea and Taiwan introduced their latest innovations, top concepts and best-selling products to an audience of industry professionals and visitors from around the world.

Meet the clientele you are looking for at Nano Korea 2007. Organizers are expecting up to 8,000 attendees from 15 countries. Exhibit categories include:

- > Nano Devices
- > Nano Materials
- > Evaluation and Measurement
- > Life & Energy

Showcased products include: NRAM, nano-wire, CNT fiber, nanofilm, DDS, nano-robotics, electronic microscope, lithography, fuel cell and nanoscale simulation.

#### Nanotechnology, Invitation to the Future

"In Pennsylvania, micro and nanotech are being advanced as enabling technologies that are bringing innovative projects to the next generation of development. Nanotech is also being expertly applied by Pennsylvania companies that have existing products on the market." (*Small Times*)

As a duly authorized representative of the above-named company, I have read, understand and agree to the following terms necessary to be a participating company in Nano Korea 2007:

- > Only Pennsylvania commodities and/or value-added products may be a part of the participating company's exhibit.
- > No foreign produced items may be included in the participating company's exhibit, except items from foreign countries that have been processed or value-added in Pennsylvania.
- > The participating company must have an office and staff or manufacturing facility in Pennsylvania.
- > In the event the participating company withdraws from Nano Korea 2007, the participating company will be subject to forfeiture of the entire participation fee.
- > All participating companies must provide information on the results attained through participation in Nano Korea 2007 to the Pennsylvania Department of Community and Economic Development. "Results" are current and future sales and dealings transacted as an outcome of attending the trade show.
